TILTON AND MOULTON IN A BAD LIGHT.

ANOTHER STATEMENT.

A RIFLE PURCHASE.

EASTERN.

Beecher-Tilton.

NEW YORK, August 22.—The *Times* refuses to publish Moulton's statement because it throws no light on Beecher's case.

The *Tribune* carefully analyzes it, to show that instead of sustaining the accusation, it greatly weakens the prosecution, and confirms Beecher's defense.

The *World*, in a scathing article reviews Moulton's and Tilton's statement, to show them devoid of honorable instincts, and proves them unworthy of belief when they offer their assertions against Beecher, unsupported by evidence showing criminality. On the contrary, the *World* says this statement of Moulton proves the truth of Beecher's statement as if admitted, and if it was, then Moulton destroyed his own credulity by talking and acting until last month consistent with Beecher's avowals, and inconsistently with any theory of Beecher's guilt.

The *Sun* says Moulton adds nothing of importance to the record. He produces nothing equivalent to a confession of criminality by Beecher, and his explanation of the blackmailing feature is unsatisfactory. His statement will change nobody's opinion upon the main question. The best public sentiment here sympathizes with these views, and few reputable persons are willing to allow Beecher's thirty years of honorable public life and reputation to be clouded upon the apology for testimony produced.

One of the members of the Committee of Inquiry told a reporter that he was utterly amazed at the weakness of the statement. There was absolutely nothing in it—not a particle of evidence against Beecher. Another telegraphed to Beecher that Moulton's statement was utterly harmless, and they were perfectly satisfied with the case. Other members of the committee expressed themselves well pleased with the statement, as they said it contained no letters of Beecher's unpublished which had the appearance of supporting the theory of Beecher's guilt. Shearman said that he felt honored and happy in being associated with Beecher as an object of attack by Moulton.

Not Guilty.

NEW YORK, August 24.—The Plymouth Church Committee has filed a lengthy report, in the conclusion of which they find Beecher not guilty, and indirectly accuse Moulton and Tilton of moral perjury in their statements.

Beecher Preaches.

NEW YORK, August 24.—Beecher preached yesterday at the Twin Mountain House, New Hampshire, before a very large congregation.

A Rifle Purchase.

NEW YORK, August 24.—The Spanish Government has made a contract for 130,000 American breech-loading rifles,

Tilton Will Speak Again.

NEW YORK, August 24.—Tilton says he will make another statement of his case, but as Moulton has spoken he is in no hurry about it.

FOREIGN NEWS.

MADRID, August 21. — Iberia announced that President Serrano has signed full credentials for representatives of Spain and European capitals. It is efficiently reported that General Morionez is at Laragga.

BAYONNE, August 21. — General Tristany has summoned Piugcerda to surrender, and has begun to bombard the city.

The Carlists report that attacks are in progress on the frontier towns of Irum and Fountabia.

A Chinese Blow.

HONGKONG, August 21.—There was a severe typhoon at Nagasaki yesterday. Great damage was done to property on the shore and to the shipping in the harbor and a considerable number of natives were lost.

SAN FRANCISCO.

Mortally Wounded—Stocks Dull—Eastern Visitors.

SAN FRANCISCO, August 24. — A young man named John White was found at an early hour this morning on Second street disemboweled by a frightful cut across the abdamon. He was alive and has been taken to the hospital, but was unable to give the name of his assailant. He cannot recover.

The weather to-day is clear and warm.

There is very little excitement in stock circles. The market is badly depressed.

A large party of Eastern visitors who arrived last night will visit the fair this afternoon and evening.

ARIZONA.

PHOENIX, August 21.—A letter from Hon. John Smith of McDowell, to Mr. Geo. E. Mowry of this place, contains the following news: Twenty-two San Carlos Apache scouts arrived at Camp McDowell on the 20th inst. from the Tonto country bringing in the head of the Chief Delche, and one hundred and twenty prisoners. They report killing twenty-five hostile Indians while on the scout. There were no white soldiers in the party. This successful scout was conducted entirely by friendly Apache Indians, enlisted for the service under Crook's policy of making Indians fight Indians.

The German Empire have now a population of 41,060,849, of which 20,150,900 are males and 20,909,900 females, probably the nearest to an equilibrium of sexes in any country of an equally large population. Sixty-three per cent. of the inhabitants are over the age of fifteen years, and these are also pretty equally divided in regard to sex. Forty per cent. of those over the age of fifteen are unmarried; about nine per cent. widowed, and one-fifth per cent. divorced. Of the whole population 2,500,000 are Poles, 150,000 Wends, 50,000 Ozechains, 150,000 Litthaners, 150,000 Danes, and 270,000 French. The Protestants claim 25,549,981 of the inhabitants, the Catholics 14,851,45, the Jews, 512,069. Thirty-one per cent. live in cities, sixty-nine in the country. Of the cities, thirty-one claim a population of over 50,000 each. The number of dwelling houses in the empire amounts to 5,263,000, and these inhabited by 7,565,000 families.

The Grand Jury of San Benito county found a bill on Monday against Frederick Wilson, the New Idria stage robber. His wife (as he claims her to be) turned State's evidence, and it is presumed that she will be cleared. It will be recollected that the woman, at the time of the attempted robbery, was attired in male apparel, and she flourished a pistol in close proximity to the driver's head, compelling him to descend from his seat while Wilson searched for expected booty.

Though preachers may preach and teachers teach
Of the evil effects of drink,
'Tis music sweet to a man of wit

With bottles by their side.

CITY AND COUNTY OFFICIAL PAPER.

TUESDAY.....AUGUST 25, 1874.

Mining in Southern California.

In presenting the mining interests of Southern California to the public, it is necessary to remind the reader, who may reside north or east, that in this section the Winters are very much milder than further north, frost rarely occuring, while snow is never seen except on the tops of the highest mountains. This gives the miner a great advantage over those in the northern and higher latitude in the eastern portion of the State, as there is not a day in the year too cold to work comfortably in the open air. So, if in the working of placers he had to knock off one or two months in the extreme dry weather of August and September, he would lose no more time than his brother miner up north, who is generally snowed in or frozen up three or four months in the year. Other things being equal, then, this is the best climate on the Pacific coast for mining operations. That we have as extensive and rich placer mines in this section of the State as have ever been discovered on the Pacific slope, is a fact acknowledged by all miners who have taken the pains to examine. This belt of gold-bearing ground is generally one or two miles wide, and can be readily traced from the mountains northeast of Santa Barbara to the State of Sonora, Mexico; and it maintains almost a direct course, crossing mountains and plains, and is so distinct in appearance that any practiced eye can detect it at a glance. Wherever it is cut by gulches or valleys the richest placer diggings have been found. But until recently it was not known that water could be had in sufficient quantities to make the working of these mines profitable. This mistake, however, has been discovered, and in addition to the three companies now at work on the San Gabriel, there is one company at work on the ditch which is to use the water that runs from Elizabeth Lake. This is called the Castec Mining Company, of which R. M. WILLIAMS is President. We have conversed with miners recently from the camp, and they all concur in saying that it is the most extensive and the richest placers they have ever seen, and to prove their faith in it, they prefer to take stock in the company rather than money for their labor. This mine is situated on the north side of Santa Clara Valley and about forty miles from Los Angeles. This will be a strong mining camp by Fall, and all their supplies will pass through this city.

There is another company at work on the Piru Creek, about fifteen miles northwest of the Castec, who also expects to have the water flowing on their gold leads this winter. Still another company is at work on the Cessipe but to what stage of advancement they have reached we do not know. There is a prospect of a company being formed to work a placer mine on the south side of the Santa Clara Valley about three miles east of Lyon's Station. A company of prospectors recently discovered two or three beautiful quartz ledges in the range of mountains north of San Fernando; we saw the speimens and they are exceedingly rich. The owners are now building their camp preparatory to opening their ledges. One of the largest deposits of asbestus in the United States was discovered a few months ago in the San Fernando mountains. The parties who discovered it have tried to keep it in the dark, but it is no use, we have seen the specimens and know it to be genuine. This little discovery will create a big excitement here some day. We have filled the space alloted for one article, and have not yet hinted at the greatest mining interest we have in our vacinity. We allude to our petroleum. We predict that within twelve months from this date there will be more excitement and more cash expended for the oil lands of our county than for all the other interests we have.

OUR correspondent, "HAMPDEN," assumes that polygamy is the leading tenet of the Mormon religion. This is hardly correct. It is the distinctive feature of that faith, but not its substratum. There are many thousand Mormons who neither practice nor believe in polygamy. In fact, the church is now divided on that question. The argument that we "first endure, then pity, then embrace" a vice, does not seem to hold in the practice of polygamy among the Latter Day Saints. Many old Mormons of both sexes have opposed that feature of the religion from the beginning, and the fact that it is practiced all around them has not made them converts to it.

THE Plymouth Church Committee have listened, pondered, and finally spoken. If this committee correctly understauds itself and the case, Mr. BEECHER is not guilty. We anticipated this verdict. The evidence must have been strong—much stronger than it was—to have secured any other degree of verdict from that committee. It was said by an eminent jurist that the Almighty foresees everything except what will be the verdict of a petit jury. Mr. BEECHER'S committee was very unlike a petit jury; everybody seemed to know what its verdict would be, and everybody guessed correctly. Well, Mr. BEECHER is innocent, Mrs. TILTON is innocent, TILTON is a fool, MOULTON a knave, and all is serene.

A Little Sermon.

A nice little sermon with a strong admixture of truth running through it, is a gem in its way, and when found should not be lightly set aside. A sermon is sometimes good and sometimes bad. Sometimes the lesson is more readily learned and longer remembered, because it is taught by a particular person or institution. Below we append one of those little sermons, which, while it is as true as Gospel, yet a sermon we would not dare to print as original in the columns of the HERALD. Had we done so we should have been denounced as the utterer of a libel and the promulgator of a fraud. But the New York *Observer*, a religious journal of might and influence, says:

All judicious pastors discourage familiarity on the part of their people, especially of the female denomination. For this way lies the danger. A silly woman pious perhaps, but very soft and shallow, hears the stirring words of her eloquent pastor, is roused, warmed, soothed, exalted,—she thinks *edified*,—and straightway she believes him to be the man sent to do her good. She goes to his study to tell him so; how much enjoyment she finds in his words; or she writes him a letter, and pours out her little soul full of twaddle about her gratitude for what her dear pastor has done for her; how she is "lifted up" by his instructions; how she loves him as a friend given to be her guide and comforter, and so on, and so on, more and worse, running into a mawkish sentimentality, a sickening man worship, disgusting to every sensible person, but very nectar to a vain, worldly preacher, who seeks only to make his hearers "feel good."

A False Argument.

EDITOR HERALD: It seems to me that in your issue of Saturday you dashed off an article under the above caption without your usual deliberation.

"Vice is a monster of such hideous mein
That, to be hated, needs but to be seen;
But seen too oft, familiar with its face,
We first endure, then pity, then embrace."

Thus speaks Pope on the subject, and it is as true as Holy Writ. We are all, more or less, creatures of circumstance, and what is hateful to-day becomes loveable to-morrow. Tell me not that precept and example exert no influence on the morals of mankind. Some thirty-five or forty years ago an Episcopal minister, to while away his leisure hours, wrote a religious romance, the manuscript of which was stolen by a shrewd, cunning, fellow by the name of Sydney Rigdon, who, in conjunction with one Joseph Smith, baptised it as the Book of Mormon. Upon this slight foundation, by the power of precept and example, they have erected a powerful theocracy, which at times has defied the power of the United States, and is still a troublesome cancer in the body politic. Since that time, Brigham Young has added polygamy to the Book of Mormon—at first to the disgust of the decent portion, if not all, of his followers. To-day, by the force of precept and example, polygamy is the first article in the Mormon creed, and its practice universal. But we need not go to Salt Lake nor the mountains of Utah for argument to refute your position—taken, probably, under the pressure of your "devil's" cry for more "copy." Do you recollect, in the early days, whilst sporting upon the village green, the first oath you ever heard? I do; and it made the hair on my head stand on end. I am older now, and have seen the day I would rip out an oath with the genuine ring of the Barbary-coast ranger, without ruffling a hair.

Take a retrospect of your own experience, and answer if truth and candor do not compel you to admit the truth of the above quotation.

HAMPDEN.

Amendments to the Code.

Among the amendments made to the Code by the last Legislature of last Winter are the following which are of general interest. They all went into effect on the first of July.

All claims against a county must be first presented to the Auditor, instead of filed with the Clerk of the Board of Supervisors as formerly.

The criminal jurisdiction of Justices of the Peace is restricted to offenses committed within their respective townships.

The jurisdiction of Justices over offenses is moreover limited to cases where the penalty does not exceed a six months imprisonment or fine of $500, instead of a year's imprisonment and $1,000 fine, as formerly.

The law allowing the mortgagee one day for every twenty miles' distance between his residence and the clerk's office, in which to record his mortgage, was also repealed; also the decision of the Supreme Court previously rendered on that enactment made the repeal more an act of form than anything else.

The Wharf Contract.

EDITOR HERALD: The Anaheim *Southern Californian* of the 22d, in an article upon the Bolsa Chica wharf matter, concerning which there has been some stir, declares that the company has nothing more to do with Gay concerning the construction of the wharf, and that no connection whatever exists between the said parties—i. e., the company and Gay. And thereupon, upon that basis, advises all to take stock therein. Will you permit me to state the facts, which are these: Gay, a bidder for the construction of the wharf, has obtained a judgment of Court against the Bolsa Chica Wharf Company for a *specific performance of contract* on the part of the company, and therefore the company has no right whatever to let the contract to any other person. Gay is and has ever been ready to perform upon his part, and intends to enforce performance upon the part of the company. E. GAY.

Los Angeles, August 24th.

ABOUT the Supervisor that we are to elect on the 2nd of September there seems to be some diversity of opinion. The candidates named so far are GABE ALLEN, G. E. LONG, W. W. ROBINSON and SAMUEL MEYER. VINCE HOOVER has been mentioned, but he positively declines the honor. Mr. GRIFFITH, the present incumbent, has not unqualifiedly refused to become a candidate for re-election. The gentlemen named are all first-class citizens and any one of them will fill the office acceptably to the people.

The following were last week elected officers of the Humboldt County Agricultural Society for the ensuing year: Geo. Shaw, President; W. S. Long and I. Miner, Vice-Presidents; Wm. Ellery and J. E. Still, Directors; C.W. Long, Treasurer, and J. A. Watson, Secretary.

A few days ago, Joseph Treglonne, aged twenty-eight, of Cornwall, England, was blasting on the new ditch, on Ogleby grade, about twenty-five miles above Placerville. A large bowlder rolled down the hill, catching Treglonne and partner, knocking the latter senseless, yet doing him no serious damage, but smashed in the head of Treglonne and mangled his face, causing almost instant death.

CITY AND COUNTY OFFICIAL PAPER.

TUESDAY.....AUGUST 25, 1874.

POSTAL CHANGES.

The following postal changes went into operation, July 1st, 1874: All publications are free of postage to subscribers in the county in which they are published. Books and packages of merchandise, to the weight of four pounds, can be sent by mail at the rate of one cent for every two ounces or fraction over. Tied packages may be entirely enclosed. Some portion of sealed packages must be opened for inspection.

LOCAL BREVITIES.

Frank Enkermann, the boy who ran away from his home a week ago, has been heard from at San Gabriel.

The Los Angeles will sail for San Francisco to-day. Passengers will leave by the 4 P. M. train.

Marcus L. Ward, ex-Governor of New Jersey, is in the city for a visit, and is stopping meanwhile at the Clarendon.

The Orizaba and Los Angeles arrived from San Francisco yesterday. Their freight lists are published elsewhere.

Judge Brunson, who has been attending the session of the Supreme Court in Sacramento, returned to the city by the Telegraph Stage Line yesterday.

One of the principals in last Saturday's melee plead guilty to the charge of assault and battery in Justice Trafford's Court yesterday. His sentence will be fixed this morning.

Mr. C. Wagoner has opened a grocery, provision and fruit store at No. 7 Aliso street, and has on hand a stock of first-class goods, which he sells at the most reasonable figures.

Mr. Kaisser arrived in the city yesterday by overland from Central America. He brings a lot of valuable oil paintings, which he proposes to sell in our city at auction.

An intoxicated individual fell down one of the flights of stairs in Temple Block yesterday, and developed two fine flowing streams from his bumped nose. After thus irrigating the steps awhile, he subsided to the calaboose.

There was something of a war in the northern part of the city yesterday, and as a concluding result, Jose Maria Renaud now brings suit in Justice Trafford's Court against Ed. Baker for assault and battery.

One of our Los Angeles street merchants, Louis Cohn by name, was a little too ambitious to make his fortune, and kept his establishment open on Sunday last. He will arrange the matter of costs with Judge Trafford.

The zanja in the upper portion of the city, near the Los Angeles Mill, broke through the flume last Saturday night and overflowed the railroad track for some distance on Alameda street. No serious damage was done.

Our friend W. W. Jenkins has caught another encroacher upon Uncle Sam's domoin. The culprit only weighs ten pounds or some such matter. Nobody can say that Mr. Jenkins is not doing his duty towards the Government.

Mr. John Miller of San Francisco, Secretary of the Board of Construction of the Central Pacific Railroad, is stopping at the Pico House. He visits Los Angeles in the interests of the company in the Anaheim branch extension.

Mrs. H. T. Perry, a pretty, petite, vivacious member of the staff editorial of the Santa Barbara *Press*, paid the HERALD sanctum a short visit yesterday. She saw a great deal of Los Angeles in a very short time, and was well pleased with what she saw.

The *California Teacher* says that Mr. DeCandolle, the eminent naturalist, could teach all he knew with a dozen plants. We can see the *Teacher* and go it one better. There is an acquaintance of ours, an instructor of youth residing near Gospel Swamp, who can teach all he knows with one little stick.

We can commend the Spring street barber shop as a first-class place for everything in the line of shaving and hair dressing. Mr. Purpura has found it necessary to introduce a third chair for the accommodation of his patrons, and it is presided over by an A No. 1 barber. Call at John's shop, try a shave, and you will go there again.

Mr. J. J. Thomas has taken charge of the HERALD'S circulation in the outskirts of the city, and will hereafter make collections on that route. Rolla Summers is no longer authorized to collect any subscriptions whatever on our account. The HERALD'S circulation is now entirely in the hands of Mr. T. D. Maloney and Mr. Thomas, and we commend them both as active and efficient men who will serve our patrons in a business-like manner.

There seems to have been a mistake in the report current last Saturday in reference to the difficulty which occurred in the Zanjero's office, and we gladly correct it that no injustice may be done to anyone. We learn that Major Bell and Mr. Waldron were standing face to face when the altercation occurred and Mr. Waldron certainly knew who it was that struck him with the pruning shears. So at least there was nothing underbanded in Major Bell's attack and no undue advantage taken. The circumstances will be developed in the trial which will doubtless occur in a day or two and then we shall furnish a true version of the affair that justice may be done to all.

The Turners had a very enjoyable gathering last Sunday night for their dramatic entertainment and ball. The hall was not overcrowded, but had an audience respectable in numbers and ample for the best enjoyment of such an affair in the heated term. The entertainment comprised two plays in German, with titles when translated respectively, "The Actress," and the "Cottage on the Highway." Miss Meyer, the talented German actress, held the leading parts with great credit and was ably assisted by amateurs of the Turn-Verein dramatic section. After the entertainment the audience remained to enjoy the bewitching dance until about 2 o'clock in the morning. Our German friends never fail to enjoy themselves when they set out to do so. We understand that Miss Meyer has been requested to favor us with an English play before leaving, and will probably do so.

A. M. Campbell's Lecture.

Rev. Mr. Campbell's lecture at Leek's Hall on Sunday evening (subject: The Bible; its Origin, Work and Destiny), was delivered to a full house. We are sorry that all Los Angeles was not there. We have never heard that subject handled in a more able manner. He presented to the audience in the most forcible manner the antagonism existing between the modern scientist and Christianity. He said: "A majority of the leading scientists seem to be in search of truth for no other purpose than to convince mankind that the Bible is not of Divine origin. In all their writings and lectures they manifest their inveterate hatred to the Scriptures. They delight to hammer the rocks of all the periods, but they never see the rock of ages; with pleasure they sweep the heavens with their glasses, but never catch one ray from the star of Bethlehem." He showed most conclusively that the good order of society was entirely dependent upon our faith in a future life. Without this faith, humanity would inevitably relapse into a state of barbarism—an enlightened religion was the only hope of the world. Science alone would not secure good society nor build up a nation. He gave many historical proofs in support of these grounds. He made no war on science; he loved it, and there was no antagonism between the Bible and science. All truth was from one common origin, and when properly understood would perfectly harmonize.

This we believe to be the proper view to take of this subject. The friends of the Bible should give themselves no uneasiness about the discoveries of science. If the Bible be true and the discovery of science be true, they must agree; if either be false it must pass away. Neither should scientists wage a war against Revelation; it is not in their way, for if they have the truth it must prevail. All the truth that has ever been discovered still lives, and the Bible lives too, and so it will ever be.

The County's Pets.

A motley group of criminals was presented in the County Court yesterday by the Sheriff. In most of the cases, the reading of the indictment was waived and the time for the pleading of all set for this morning at 10 o'clock. Juan Felipe, under arrest on a charge of burglary, appeared without counsel, and the Court appointed S. C. Hubell for his defense. Edward Moore was arraigned for attempt to commit murder and had Howard & Hazard for Counsel. John Brown appeared for grand larceny, and the Court appointed Will D. Gould as his counsel. J. C. Cox, indicted for obtaining money under false pretenses had for his defense Howard & Hazard. Manuel Sepulveda and Ygnaico Cameras for perjury had for defense Mr. Aguilar and Howard & Hazard respectively. An Indian named Chauquil for committing assault with a knife had for Counsel C. N. Wilson by appointment.

The proceedings being thus far concluded, the prisoners were again conducted to jail to await their pleadings this morning and their trials which the Judge stated would doubtless come off the first week in next month.

Presbyterian Sunday School.

Last Sunday morning immediately after public services at Good Templar's Hall, the congregation organized a Sunday School to be conducted under the auspices of the Presbyterian Church.

The following officers were elected: Dr. J. H. McKee, Superintendent; Jno. F. Hawley, Assistant Superintendent, and Musical Director; Edward Doak, Secretary, Librarian and Treasurer. Rev. A. F. White L. L. D., the Pastor will conduct the Bible Class. This will be an exercise of great interest the benefits of which all young men and adults generally that can should avail themselves of. Active and competent teachers will be supplied to classes as soon as they are formed.

We wish them abundant success in their praiseworthy enterprise and shall hope that this may prove the prolific nursery for a powerful church in this city.

Presbyterian Church.

We are pleased to note the success attending the efforts of Rev. Dr. White in the re-organization of the Presbyterian Church in this city. His audience and membership are steadily increasing, and ere long they hope to begin the erection of a church edifice. It will be remembered that the building now used by the Episcopal Church was erected for the Presbyterians some years ago and by them finally transferred to the Episcopals. Now they undertake the work of re-organizing and building again with an able man in charge who, it is hoped will succeed in collecting together the abundant Presbyterian element in the city. Dr. White delivered able sermons in Good Templar's Hall last Sunday morning and evening, furnishing true intellectual and religious feasts for all.

A New Arrival.

Professor A. H. Havell, who is well known in this city as an accomplished pianist, arrived per Orizaba yesterday with his family, and is now stopping at the Pico House. The Professor comes to take up his permanent residence in this city. He has already received applications from quite a number of pupils—almost or quite as many as he will be able to accommodate. Professor Havell brought down with him some twenty-five or thirty first-class pianos, which he will have on sale as soon as he can secure suitable rooms. The skill of the Professor as a teacher and his thorough knowledge of pianos guarantees his success, both as a teacher of music and a dealer in the instruments of the most popular manufacturers.

On the 17th inst., on the ranch of Dan. S. Austin, near Formington, the machine of J. H. Duncan and Charles Dial thrashed and separated 3,026 bushels of wheat. The machine was moved twice during the day.

N. B. Moore, arrested in Butte county in July for attempting to commit a gross outrage upon a married lady, and who was committed to Stockton as insane. Has been returned to Oroville for trial. It appears that Moore feigned insanity.

In Memoriam.

To the Officers and Members of Compton Grange No. 37, P. of H.:

Your Committee appointed to draft resolutions of respect to the memory of our deceased brother, Wm. Morton, respectfully submit the following:

WHEREAS, God in His infinite wisdom has seen fit to remove from amongst us by death one of our most honored and respected members, be it therefore

Resolved, That by the death of brother Morton this Grange and the fraternity sustains a loss of one of its most active and faithful members, and society a good citizen and a consistent Christian gentleman.

Resolved, That we tender to the bereaved family, relatives and friends of the deceased our heartfelt sympathy in this their great affliction.

Resolved, That as a token of the esteem in which he was held, our hall be draped in mourning for thirty days and the members wear the usual badge of mourning of the Order for the same time.

Resolved, That a copy of these resolutions, under the seal of the Grange, be forwarded to the family of the deceased.

Resolved, That these resolutions be spread in full upon the minutes of the meeting, and the Secretary be instructed to forward a copy to the Los Angeles HERALD, *California Granger*, and Stockton *Independent*, with the request for publication.

Fire In Public School No. 6 Jersey City During School Hours.

JERSEY CITY, February, 23, 1874.

Secretary Babcock Manufacturing Company—Dear Sir:—The wisdom of the Board of Directors of Education in furnishing Babcock Fire Extinguishers to each of the public schools was fully justified on Friday last when a fire broke out in school house No. 6, where more than twelve hundred children were assembled. The Babcock was brought into use by the principal, Mr. Wakeman, and the flames almost instantly subdued. The exercises of the school were not interfered with in the least, because the sense of security afforded both teachers and pupils by the presence of this efficient machine is such as to render a panic almost impossible.

I think that school officers are sadly negligent of one of their most important duties when they fail to provide at least one of these extinguishers to each school under their care.

Without doubt, in this instance, ten times the amount of money expended in supplying all our twenty-one schools with the machines was saved by having this one on the spot.

Yours, very Respectfully,
THOMAS POTTER.
Prest. Board Directors of Education.

The time occupied for the entire school to pass was two hours and forty minutes, and it is estimated that it was fully a mile in length. It is the largest school of the smallest sardines that has ever been seen here."

The Marysville *Appeal* accounts for the deadness of the fruit market for Yuba county by the following paragraph in the Grass Valley *Union:* "The fruit market of Grass valley is abundantly supplied with grapes, peaches, plums, pears, apricots, etc., all of home growth. The people of the foot-hills formerly purchased our fruit. They now raise their own, and send the surplus into the mountain market and compete with us there."

PIPIFAX.

This remarkable curative herbal preparation is entirely unlike and greatly superior to any other recuperant ever discovered.

It strengthens the living vital nervauric principle, and gives energy to the muscles, nerves, filaments, membranes, and all tissues of the internal organs.

PIPIFAX—Keeps the skin in a supple condition; the cuticle pliant; the pores open; and brings the blood to the surface; thereby enabling the system to counteract these baneful atmospheric influences.

PIPIFAX—Passes through the blood, carries off by prespiration and other excretions the effete and injurious materials of the body. It is soothing, alterative and deferative. Used methodically and rationally, aided by suitable diet, it produces most important changes in the system, contributing to the reconstruction of tissues, and removes vitiated matter which has become not only useless but injurious. No other article has ever been introduced which combines in such an extraordinary degree the principles of an efficient antibilious agent and tonic. Try it and be convinced. may29 3m—20
